

WOW! SECURITY GATEWAY

Your key to successful diagnostics!

The **WOW! Security Gateway Portal (SGP)** is your key to diagnostic success, enabling you to work on all available vehicles whose communication or individual functions are blocked by a security gateway.

The SGP is accessed via the WOW! LOOQIT diagnostic software.

Access and functionality are only possible with an active licence.

After a single registration and authentication in the SGP, all vehicles of the available manufacturers can be accessed. We take care of the communication with the manufacturers and the request for access certificates.

The WOW! diagnostic licence (Expert / WSD 299 / WSD 300) includes the following vehicle brands that can be activated in the SGP without additional costs:

SECURITY GATEWAY BASIC included in active WOW! diagnostic licence		
Vehicle brand	VCI LOOQER	VCI SNOOPER+
Alfa Romeo	✓	✓
Audi	✓	✓
Cupra	✓	✓
Fiat	✓	✓
Jeep	✓	✓
Lancia	✓	✓
Mercedes Benz	✓	✓
Seat	✓	✓
Skoda	✓	✓
Volkswagen	✓	✓

SGP access for IVECO still requires an additional licence for a fee.

WOW! SECURITY GATEWAY PREMIUM

Full diagnostic power for all car professionals!

The **Security Gateway Premium licence** enables the activation of Ford, Renault and Dacia vehicle brands.

The monthly licence costs also include future vehicle manufacturers that will be included into the Security Gateway Portal.
