

PRODUCT INFORMATION

WOW! Diagnostic system iQ 350 Gen 41

Highlights iQ 350

Ideal industrial tablet for working in different environments. The iQ 350 gives you the flexibility you need whether you work in the workshop or outdoors. Enjoy robust mobility for each of your diagnostic sessions!

WOW! iQ 350 Gen 41

Robust and mobile performance for everyday workshop use

Diagnostic system iQ 350 (order no. W072350101) consisting of:

- Tablet PC for mobile use and demanding workshop conditions
- Wireless diagnostic interface Snooper+ with Bluetooth connection (alternatively possible via USB)
- Robust system case
- WOW! diagnostic software set up ready for operation Start & Go"

For functional diagnostics, the WOW! Diagnostic Software WSD 300 is required (order no. W015 000 007).

We recommend the WOW! Power package consisting of WSD 300 and WTI 350 - for full access to Power Repair and further WOW! Software Highlights. Please be aware that the license packages are dependent on the respective distribution countries and are therefore not everywhere available.

Further information is available at www.wow-portal.com or directly from your WOW! sales representative.

Features

Robust and safe:

- Shock resistant SSD hard disk
- Robust and safe: (full-ruggedized), IP65 splash and dust protected
- Sunlight-readable and bright screen for outdoor use in daylight
- Touch-sensitive multi-touch display enables familiar finger swipe and zoom function, e.g. for enlarging images or shifting the current view in zoomed circuit diagrams
- Device for anti-theft protection by connection of a Kensington lock included

Mobile and powerful for your daily workshop routine:

- 2 high-performance batteries for over 6 hours of operation
- Integrated webcam/camera enables e.g. the fast documentation of damages of customer vehicles
- Large display for showing diagnostic results, pictures, circuit diagrams and technical data
