

**Always up to date with air conditioning target data from WOW!**

Together with the up-to-date air conditioning target data our A/C service units are optimally equipped for the daily demands in the workshop. The regular updates of the target data ensure that you are always working with the most up-to-date filling quantities for both new and old models.

**Benefits that you should be aware of regarding air conditioning target data updates:**

New updates for air conditioning service supply new data for vehicles in all sectors: cars, buses and commercial vehicles.

New target data are available for the entire portfolio of WOW! A/C service units.

You can acquire the new data that come out every year without obligation. Depending on the A/C service unit you have, you acquire these data on a data medium suitable for the unit.

The updates contain vehicle filling quantities for both new and old models

Vehicle filling quantities are available for vehicles with both the R134a and R-1234yf refrigerant.
