- Mercedes - GLB-Class [X247], GLS [X167], Sprinter [907/910], Sprinter Classic [909]
- Toyota - Corolla [18-], RAV 4 [19-]

WOW! NEWS

You do not (yet) need the “new” vehicles? We also pay attention to the “old”!

Also with 5.28.0 the main coverage in diagnosis comes for “middle age” vehicles. Nearly 60% of all new developed diagnosis functions cover vehicles from 4 to 10 years. This should apply to the daily work in your workshop.

ACS CARS – CALIBRATE DRIVER ASSISTANCE SYSTEMS

ACS cars from WOW! Würth Online World offers you a flexible and cost-effective system for the calibration of all relevant vehicle brands consisting of hard- and software. The system can be expanded at any time by double-sided, brand-specific calibration plates. Individually and cost-effectively combinable, it will be an indispensable aid in the everyday workshop process. WOW! ACS cars combines both calibration boards for camera calibration and radar calibration units for radar calibration.

EXTENSION OF FUNCTIONAL RANGE & DATABASE FOR ACS CARS

- Database extension for the camera calibration (ACS cars) for models from Audi, Citroen, Jaguar, Land Rover, Mazda, Mercedes, Opel, Toyota, Vauxhall
- New radar calibration function for models from Alfa Romeo, Audi, Fiat, Jeep, Nissan, Seat, Skoda, Volkswagen

AVAILABILITY OF RADAR CALIBRATION ACCESSORIES

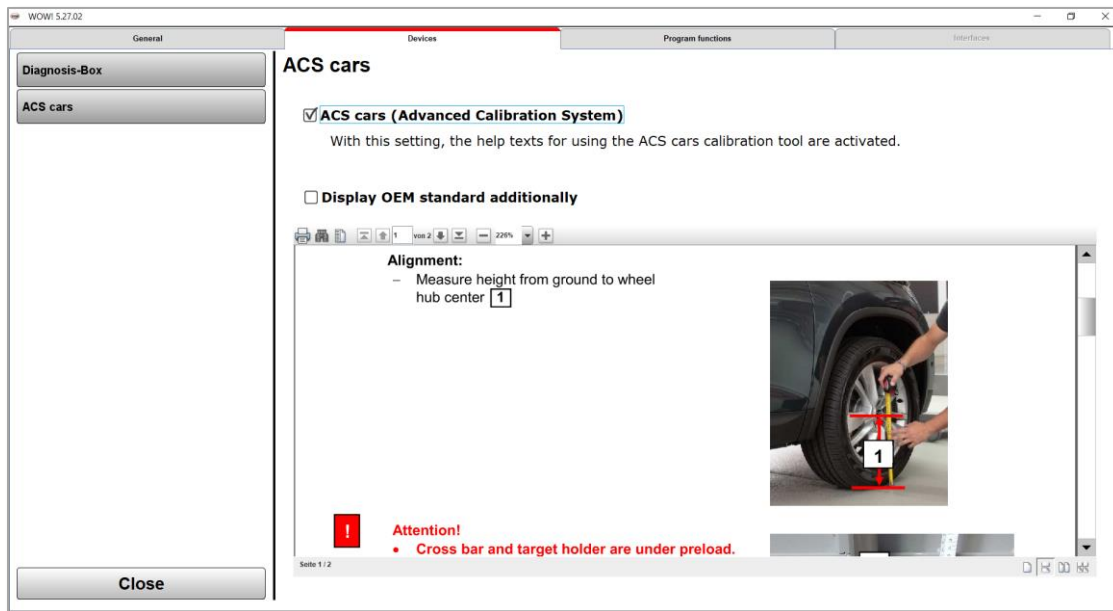

- With the release of the software version 5.28.00 also the accessory *Radar Kit 2* for radar calibration is available. This can be used to adjust certain models of the VAG-Group, FCA, Nissan and BMW. A detailed list of vehicle covers will appear shortly on our homepage.

MARKET LAUNCH OF ACS CARS FURTHER NATIONAL SUBSIDIARIES

With the software version 5.28.00 the WOW! Tool set "ACS cars" is available for the national subsidiaries in:

- **Croatia, Hungary, Greece, Bulgaria**

IN DEVELOPMENT

SECURITY GATEWAY FIAT CHRYSLER AUTOMOBILES N.V.

In cooperation with FCA, important agreements have already been reached regarding the security gateway issue. A comprehensive press release and a video statement by our managing director Frank Bartsch will be published shortly, which will inform you comprehensively about the further development steps.

FORECAST SECURITY SYSTEM MERCEDES BENZ

Mercedes Benz will provide various models with their own security gateway. In cooperation with Mercedes Benz we are actively working on a solution to be able to diagnose the models that will be equipped with it in the future.

Please do not hesitate to contact us if you have any questions.

We hope you enjoy working with the WOW! software and the WOW! 5.28.00 update, we wish you a relaxed working day.

Your WOW! Team
